

SALT LAKE SUBSCRIPTIONS NEARING \$50,000 MARK

Effort Being Made to Collect Clothing for People in Destroyed City.

Bundles Will Be Carried on Street Cars Today and Delivered Down Town to Committee.

Summary of Subscriptions.

Citizens committee	\$17,392.45
By the Herald yesterday for citizens' committee	154.65
Commercial club	5,590.45
Mormon church	10,000.00
City council	10,000.00
State committee	6,550.00
Mining exchange	620.00
Typographical union	200.00
Bricklayers' union	200.00
Cigarmakers' union	200.00
Odd Fellows	150.00
Tribune and Deseret News	3,885.10
Alta club	1,385.00
Total	\$57,150.05

Clothing for people of San Francisco who are not properly protected from the elements will be collected in Salt Lake today by workers for the Citizens' Relief committee and the Commercial club and by school children and citizens. Street cars on all lines except First South street will stop at all street crossings to receive the clothing and the Citizens' Relief committee will have a man stationed in front of The Herald office to unload the cars as they arrive. This arrangement was made last night at the Elks' club by the transportation committee of the Citizens' organization. Chairman Tom Pitt of this committee conferred with Superintendent W. P. Road of the Utah Light and Railway company with the result that the latter readily consented to the plan as already outlined. Conductors of cars on all of the lines, with the exception mentioned, received instructions this morning to stop their cars at all crossings when hailed by any person carrying bundles of clothing and to permit these bundles to be loaded on the cars. The bundles should be well tied and labeled "Care of The Herald." All cars will stop in front of The Herald office and a man will be stationed at this point to receive the packages.

Feed Refugees at Provo.

G. R. Cleveland of the transportation committee, telephoned Mrs. J. L. Herrick at Provo yesterday and made arrangements to have refugees from San Francisco fed at that city. Mrs. Herrick is chairman of the Relief committee at Provo. This means that more refugees will be fed in Salt Lake who are bound for Denver and Colorado points on the Denver & Rio Grande railroad, for the reason that they are given a meal at Ogden and are not hungry when they arrive here. By the time they reach Provo they will want another meal and the transportation committee decided to furnish the relief committee at Provo with supplies or money to purchase supplies. Chairman Pitt sent a telegram to Grand Junction last night asking that the refugees who left Salt Lake yesterday be given a hearty breakfast when they arrive in the Colorado city this morning. He urged the necessity of taking care of these destitute people and no doubt they will receive the attention they need.

Subscriptions Coming in.

The Citizens' committee has a total subscription of \$17,392.45, and is collecting it in as rapidly as possible. A large number of firms in the city have not yet been visited by the solicitors, but they will be called upon as rapidly as the solicitors can get to them and before the work is completed it is believed every business and professional man in Salt Lake will have contributed his portion to the regular fund. To the amount subscribed to the Citizens' committee fund should be added the money subscribed by the bankers of the city through the medium of the state committee. This amount is \$6,000. Then there is the subscription of the Commercial club amounting to \$5,590.45. W. S. McCornick is the treasurer for these three funds, and makes a total up to date from these three sources of \$30,322.90. The amounts collected to date by the Citizens' committee and the Commercial club follow:

Report made to the Secretary of State of the State of Utah of the condition of

Salt Lake Security and Trust Co.

April 6th, 1906.

WORD FROM WILL CLAWSON

Wife of Salt Lake Artist Writes of Awful Scenes in Desolate City.

J. Will Clawson, the Salt Lake artist, who was living in San Francisco, and his wife, who was Miss Mary Clark, daughter of ex-Mayor John Clark, have been heard from. Mr. Clark received the following postal card from his daughter yesterday: "We are safe, but everything we had is gone. Our studio, with everything in it, is crushed to the ground. Nothing was saved, not even the most beautiful portrait Will had just finished. The city is in danger of fire. All the waterfalls are broken. Fires are all around us. We are packing now, ready to rush to the beach if the fire cannot be controlled. The streets are surging with excited people. This was the most awful earthquake ever known. The morgue is full for the relief of the California sufferers from earthquake and fire. All mining stock so donated will be offered for sale at 11:30 Saturday morning, April 28th, 1906, in the rooms of the Salt Lake Mining and Stock Exchange."

The Commercial club earnestly requests donations of mining stock, the same to be sold at public auction to the highest bidder, the proceeds to be used for the relief of the California sufferers from earthquake and fire. All mining stock so donated will be offered for sale at 11:30 Saturday morning, April 28th, 1906, in the rooms of the Salt Lake Mining and Stock Exchange.

MORE AID NEEDED FOR STRICKEN CALIFORNIANS

General Committee Makes Appeal to Salt Lake Citizens to Keep Giving That They May Keep Sending Supplies Sorely Needed in San Francisco.

To the People of Salt Lake:

Your generosity toward the afflicted of California while their needs were only guessed at has been amazing in its prodigality. Money and supplies have poured in upon the various holding and forwarding departments of the relief movement so as to tax the ability of packers and shippers, daily, in the case of supplies, and accumulate in the hands of the treasurer, W. S. McCornick, \$22,500. The latter fund does not include several large contributions which were remitted by the contributors direct, or are still held for remittance. It does include, however, remittances from Rock Springs and from Brigham City.

The relief shipments from Salt Lake to date, including the Hearst shipments made by his banker, total twenty-five cars, and eight cars of supplies additional have been bought with Salt Lake contributions and shipped from other cities in the state on orders from San Francisco.

Appeals continue to come for supplies of food stuffs, clothing and bedding. This being one of the nearest depots, they are directed to authorities here and this committee must continue to authorize their purchase where the needed articles are not given.

The sum already raised, therefore, while large, is insufficient. Mr. Harriman says, "Keep sending!" The governor says they'll "have to keep 200,000 people perhaps several weeks." Returning Salt Laker report continuing need, and dispatches show that the contributions are being received and distributed systematically and effectively.

We ask, therefore, that the people of Salt Lake keep donations coming as their means permit, for a while longer. In the haste which has attended our effort to procure funds, little solicitation has been possible. If demands continue to be made upon us, however, a thorough canvass for additional funds will be necessary. We express the hope that the delay and expense of such necessity may be avoided, and to that end publicly urge all business houses and generous people who have not already sent to the committee money or supplies, to do so at once, making checks payable to W. S. McCornick, treasurer, and placing supplies at the disposal of T. D. Platt, chairman transportation committee.

J. C. LEARY,
J. G. McDONALD,
Executive Committee,
T. G. WEBBER, Chairman.

HANGS HIMSELF IN COUNTY JAIL

Erik Backlund, a Finlander,
Fastens Necktie to Cell Bars
and Other End Around Neck.

DIES OF STRANGULATION

DESPONDENCY LEADS HIM TO
TAKE HIS OWN LIFE.

Tying his socks and necktie together, Erik Backlund, a Finn, aged 37 years, leaped one end around his neck early yesterday morning and, fastening the other end to the bars of his cell in the county jail, hung himself.

The man's dead body was found about 6 o'clock yesterday morning by Jailer Joseph Burbridge when he entered the cell house. Backlund's seat of death resulted from strangulation, as the neck was not broken. The dead man has relatives in Bingham, and they were notified yesterday of his death. The body will be shipped to Bingham today and buried there.

Preparing to Go Home. Backlund came to America about five years ago and for some time past had been employed as a miner at the mines in Bingham. He was saving his money with the intention of going back to his native country, where he had a wife and family. In a drunken brawl in Bingham Backlund drew a gun to protect himself. He was arrested and found guilty of assault. He was sentenced Feb. 16 to serve ninety days. He wrote to his wife about his misfortune, but his letter was not answered. He wrote several times afterward, but received no answer. This, it is said, was the cause of his despondency. A letter from Finland addressed to him at Bingham reached the county jail yesterday but it was not opened. It is possible that it was from some of his relatives or perhaps his wife. It was not opened and was carried back to Bingham with his effects. The body will be buried there by his relatives, who will inform his wife of his death. Backlund, it is said, had some money he had saved from his wages, which will be used to defray his burial expenses.

TELLS OF AWFUL THINGS

"Rob" Kenyon, Salt Lake Young
Man, Described San Francisco Horrors.

Without having removed his clothes since the earth trembled in San Francisco, R. H. ("Rob") Kenyon, son of the late Sam J. Kenyon, returned to the city of his nativity an earthquake refugee yesterday. "Conditions in San Francisco are so bad that I don't know how to describe them to you. I saw little children running around with their hands burned to a crisp and their hair burned off. I saw a hundred dead bodies lying neglected in Market street. A woman with a wagonload of bread, which she wanted to sell at 25 cents a loaf, the soldiers ordered him to distribute it free of charge. He refused and a soldier shot him dead. He was allowed to lie where he was shot. Bread was distributed to a crowd which fought hungrily for morsels of it.

A woman with three children stood in line waiting for bread. The children were suffering horribly from hunger. The man tried to tear the rings out of a woman's ears. A soldier shot him. If a man refuses to go to work he is shot. No arrests are made. West men who commit an offense under the eyes of a soldier or a policeman are killed.

Mr. Kenyon was in the Alturas hotel when the shock came. He was working at night and had not undressed for bed when the shock came. He escaped with the clothes he was on his back and that was all. He worked in the temporary hospital in Golden Gate park for two days after the quake.

TO BUILD ROOFING PLANT

Site Bought and Building to Be Completed Within Sixty Days for New Industry.

O. J. Smith, local manager of the National Mastic Roofing company, yesterday closed a deal for the southeast corner of Fifth North and Fifth West streets, with ten rods frontage on each street. The Hyrum A. Silver Foundry & Machine company owns the property. The ground is to be the site of a plant for the National Mastic Roofing company, which will be erected at once and, when completed, represents an investment of \$25,000. Five buildings are to be put up—one 16x36 feet, one 18x36 feet and three 20x30 feet. All will be built of concrete blocks. Machinery has been purchased for the plant, which will manufacture roofing and refine asphalt. It is expected the plant will be in operation in sixty days. Thirty men will be given employment by the new concern, which will supply the states of Utah, Idaho, Nevada, Colorado, Montana, and Wyoming. All this is being done by the company, which has been supplied from the Oakland plant of the company. The company has several big contracts in Utah at the present time, notably those for the Utah Copper company's plant and the American Smelting & Refining company's plant at Garfield. Within a few days a Utah company will be organized and incorporated, with Mr. Smith as president.

Picture Framing, Mat Cutting and Mounting.

Charles H. Bodell, 33-35 East First South street. Papers and papering, painting, etc. Beautiful line of all the newest frame mouldings just in. Latest machines for cutting mats and frames. We are now prepared to do the finest class of work in all these lines.

Chow Chow like Ma used to make—only better. That's the kind Mount makes and all wide-awake grocers sell. Eat your lunch in the Palm garden at the Royal.

RAGGED REFUGEES ARRIVE IN ZION

Some Stay and Are Fed, Others
Hurry on to Eastern
Homes.

MANY TO SEEK WORK HERE

BIG SUPPER SERVED IN UPTOWN CAFE BY COMMITTEE.

The Rio Grande brought 246 San Francisco refugees yesterday into Salt Lake from Ogden. One special train of five cars arrived here with 102 passengers at 2 o'clock in the afternoon. A second train, carrying 144 destitute passengers who reached Ogden yesterday evening on the Southern Pacific No. 4, arrived shortly after 8 o'clock. Both trains were met by members of the California relief committee. Nearly fifty refugees remained in Salt Lake to meet relatives or friends. Others are anxious to secure work here. Those who remained here will receive work from the California relief committee which will supply their wants until they are again on their feet.

Persons in Salt Lake who need domestic or help of any kind are requested to telephone their wants to Chairman Tom D. Pitt of the relief committee, both phones 955.

Are Bound for the East.

The refugees who passed through Salt Lake last evening are bound for Denver, intermediate and far eastern points. All passengers with Denver as their destination are being handled by the Denver & Rio Grande. Train No. 1 arrived in the Rio Grande yards at 2 o'clock and was switched on side tracks to be held here until evening, when additional cars carrying later arrivals would be added and the whole train move eastward.

The tired, sleepy, dusty but thankful passengers, whom the quake and fire left destitute, remained in the cars mostly. A committee of the relief association visited the depot and rendered all assistance needed. The passengers wanted little when they reached here. Dinner had been served to them at Ogden and clothes had been distributed to them.

A few came up town and went sight-seeing but these were exceptions. The strain and horrors to which the majority of them have been subjected have left them exhausted and indifferent. They are fleeing from a city which a week ago was the pride of the Pacific coast and today is a heap of blackened ruins. These people who escaped with their lives and little more sat in their cars during the afternoon and slept or tried to sleep. Some of them carried small grips and hand satchels with a few garments. Others were clothed in garments donated by towns along the road.

White people, colored people, Chinese and women, Japanese, Italians and every nationality were represented. They were huddled in motely crowds. Families of five members or more captured two seats in the chair coaches. These were their homes. They played and romped up and down the aisles. The tots did not know why they were riding from home on the "choos-choos," but riding on "choos-choos" is one of the greatest sports the ordinary tot enjoys.

Are Served With Supper.

At 5:30 street cars were taken to the depot and the strangers brought up town where supper was served at the Ensign cafe. Members of the central committee were in attendance to supply the refugees with food. The refugees who came up town, those who remained in the cars were provided food by the relief committee. The Utah Light & Railway company had several cars out to bring the strangers from the depot direct to the restaurant and carry them after the meal to the cars.

After supper the visitors walked in the depot yards and awaited the arrival of the evening train from Ogden. In the cars and yards they gathered in groups and narrated their experiences. They were a happy lot these homeless, moneyless people, who are fleeing from a ruined city to where? Nine of ten of them do not know themselves.

Stories of Refugees.

"I was lucky," said one man who wore a diamond in his necktie. His shoes had been torn and cut in his travels through the town after the earthquake had wrought the destruction. "I was in the Winchester hotel when the shock happened. The motion of the building threw me out of bed. I saw the walls caving in, so I crept under."

SPRING CATARRH.

F. C. Schramm Sells Hyomei Under
Guarantee of Cure.

The changeable weather of Spring is directly responsible for the prevalence of catarrhal troubles in Salt Lake City at the present time. As a result F. C. Schramm had a larger sale for Hyomei the past week than ever before in the years that he has handled this reliable treatment for the cure of catarrh. Unlike the ordinary remedies that have been used in catarrhal troubles, there is no stomach dosing with Hyomei. It is breathed through a neat pocket inhaler that comes with every outfit and its balsamic, antiseptic healing penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane, and effecting a complete and permanent cure. If there is a single catarrhal germ in the system, Hyomei will search it out and absolutely destroy it, completely eradicating the trouble. The remedy has made so many cures among F. C. Schramm's customers that he offers to pay for it himself if it does not benefit even the worst case of catarrh. The complete outfit costs only \$1, consisting of an inhaler, medicine dropper, and bottle of Hyomei, while extra bottles of Hyomei can be obtained for 50 cents. There will not be even this small expense if Hyomei does not cure, as F. C. Schramm will return your money.

For sale by F. C. Schramm, corner First South and Main streets, "where the cars stop."

MARRIOTT'S MARKET

THIS MORNING

Let us talk to you a little about one of the little things for your table. Butter is one. We're particularly careful to get our butter fresh and free from the rancid taste. We buy only the kind which we'd like to use ourselves.

FIVE 'PHONES.

22 West First South

We sell a lot of Schilling's best. There must be a reason.

STILL SEARCHING FOR BULLOCK

John Brown, a quarryman and relative of James M. Bullock, Jr., reported to the police last night that Bullock, who had been missing for the past week, had been seen on Saturday at the Oregon Short Line's north yards. Several men who seen the man supposed to have been Bullock, say that he acted strangely and their description tallied with that of Bullock. Word was telephoned to the officials in the different towns both north and south of Salt Lake to keep a close lookout for Bullock and furnishing them with his description.

ADOPTS CROWTHER'S PLAN

Commercial Club Asks for Contributions of Stock for San Francisco Sufferers.

Following up the plan outlined by Henry M. Crowther, who was the first to donate stock for the purpose, the Commercial club is calling for contributions of stock and any reliable company, which will be sold for the benefit of the sufferers by the San Francisco disaster. A formal sale of the stock obtained in this manner will be held at 11:30 Saturday morning at the Salt Lake Mining exchange.

SOLDIERS SHOT UP CAR.

Passengers Terrorized on East Second South Street Car.

Four soldiers terrorized the passengers on an East Second South car, bound for Fort Douglas, about 11 o'clock last night by firing half a dozen shots in the air while standing on the rear platform. The soldiers jumped off at Tenth East and Second South streets. The shooting was reported to the police and in all probability the soldiers will be arrested. The conductor on the car furnished the police with a description of the men.

Quality in Rubber

Is the only thing that will make it lasting in this climate. It doesn't pay anybody to buy anything made of rubber of poor quality, and it would be impossible to buy rubber of that kind at our establishment. Particularly we want to emphasize the quality of our fountain syringes, of which we have just received a new installment.
